

SYRRIS

# Virtual Italian Flow Chemistry Workshop 07 July 2021

REGISTER NOW

Improve the safety,  
quality and speed of your  
chemistry with our free  
virtual workshop.

Join us for our virtual workshop to learn  
about modern flow chemistry techniques  
and discover the benefits that flow  
chemistry can bring to your experiments.

Hosted in partnership with Alfatest.

 **ALFATEST**  
strumentazione scientifica

## Agenda 10:00-13.00 CEST

10:00 - 10:10	Introduction to Syrris and Alfatest
10:10 - 10:30	What is Flow Chemistry: Principles and Benefits
10:30 - 11:00	Applications
11:00 - 11:30	Surface-functional nanoparticles via microfluidics. Preparative methods and biological properties Presented by Dr Mike Geven - IIT - Istituto Italiano di Tecnologia
11:30 - 11:40	Break
11:40 - 12:00	Live Demo of Asia Flow Chemistry System Modules
12:00 - 12:40	Live Demo of Reactions: Wittig Reaction Experiment and Photochemistry Experiments
12:40 - 13:00	Q&A and Conclusion
